***Note:** The day by day descriptions published are intended as a rough guideline only. Travel by nature is unpredictable, weather patterns, game migrations, road conditions, public holidays, travel restrictions and a multitude of other factors may necessitate itinerary changes that ultimately are for the client's benefit. It is essential that clients are flexible and open minded in this regard.*

Is this trip right for me?

This is an active trip. Our small group covers a lot of ground each day. Expect to spend most of your time driving over roads that are often rough and bumpy in safari vehicles that cannot be air-conditioned. Only "bush toilets" are available during game drives. There are many early mornings. Electricity in the camps is provided by generator and may not be available 24 hours a day. Many of the accommodations are built in the traditional local style and have no air-conditioning. Visitors to Kenya are required to carry proof of Yellow Fever vaccination if travelling through or from a country with risk of yellow fever, and are encouraged to consult their health-care providers regarding malaria prophylaxis. We suggest you check with your health-care provider before signing up for this tour. Some of our tours require walking or stairs between tents. Safari vehicles have high ground clearance and require agility to embark and disembark. During this tour, you may come into proximity of wild animals whose actions can be unpredictable. Certain inherent risks are involved which should be considered at your own discretion.
