Today, the major attraction of Kumrovec is the Ethnological Museum Staro Selo (Old Village) with very well preserved village houses from the turn of the 19th and the 20th centuries. Gondola Ride

One of the experiences of any Italian holiday is a Venetian gondola ride. For centuries, the traditional flat bottom boat has been a major means of transportation in Venice though its primary role today is to take tourists on rides. Gondoliers may seem like "rough-and-ready" characters, however they are actually highly skilled operators constantly working on the perfect balance of this watercraft. The profession, handed down from generation to generation, is regulated by a guild which issues a limited number of licenses to highly trained gondoliers to navigate the narrow spaces of the Venetian canals. Explore part of the Grand Canal as well as some other hidden minor waterways. The gondola holds a maximum of six passengers. Please note that this is not a private gondola ride. Your gondolier will indicate the seating arrangements to balance the boat and you may not be seated next to your travel companions. Though you may envision the gondolier singing to you, there will only be a musician aboard one of the boats in your fleet of several different gondolas.

Pick-up details to be advised locally. Approximate tour duration is 30 minutes.
