Scenic cruising destinations

Glacier Bay National Park & Preserve, AK

A popular tour destination on cruise itineraries, Glacier Bay National Park & Preserve wows with its icy wilderness and grand glaciers in southeastern Alaska. Cruise ships, sailboats, kayaks and more navigate the 65-mile bay for picturesque vantage points of more than 1,000 glaciers, but they can't draw too near to the frozen giants since chunks of ice often break off, or calve, from glaciers and thunder down into the water, creating icebergs. Glaciers of note include the park's largest tidewater glacier, John Hopkins; the elongated 21-mile Margerie; and the rapidly receding Muir. The park also is home to an amazing world of marine life, including humpback whales, sea otters, giant Pacific octopuses and harbor porpoises. An array of species resides on land, from brown and black bears to moose, mountain goats, wolves and prickly porcupines, while the bird variety includes bald eagles, tufted puffins and trumpeter swans.
